

Technical Data Sheet

Mesh

Material: pre-galvanized mild steel

Resistance: 38/43 kg/mm²

Elasticity limit: 30/34 kg/mm²

Sheets 2500 mm long x 600 mm wide (1.5 m) Packaging: Package 20 sheets (30 m²).

Thickness	(mm)	0,5	0,4	0,3
Weight for square meter	(kg/m ²)	1,95	1,55	1,17
Package weight	(kg)	58,5	46,5	35,1

Section of sheet 0,5 or 0,4 mm
Nerve height 7 mm aprox.

Section of sheet 0,3 mm
Nerve height 4 mm aprox.

Applications:

Mesh 0,3 (only galvanized): To support fireproof insulation or plaster.

Mesh 0,4: For decks, roofs and insulation support flame-retardant coatings.

Mesh 0,5: As tough armour and load bearing, for floors, decks, slabs.
